

Saguaro National Park - Saguaro Census Plot #13 Re-do
February 19 – Park Staff and Volunteers

Saguaro Plot #13

In this figure, green columns represent the number of saguaros counted in 1990; red represent 2000, blue represent 2009 and purple represent 2010. This plot was surveyed twice this year so that we can determine how detectable the saguaros are. This plot was first surveyed in August of 2009. The data shows that more saguaros were found the second time we surveyed the plot.
